6. IISC Mtech Research and PHD : 2020
7. IIT Madras RB Data Science : 2020 Baccalaureate Fellowship
8. Social Cops Fellowship
9. Supr Daily- AM Category Role

What are plans and bigger goals??

I am scared of my father , that he will be against my decision to drop the job with no skills and other job in hand.

Reasons I feel doomed

1. I am 25 years old
2. Electrical engineer with no interest in electrical engineering
3. Insufficient computer science skill set
4. Wanted to work in development and policy sector
5. Had a hidden feelings for computer science

Right now what are my plans:

1. GRE on 28th Dec 2020 : 326, 4 AWA
2. 30th Dec 2020 Resignation from company
3. January 2020: Start my Deep Learning and programming journey/ Start preparation for MBA : Started

1. 2014 Entered NIT Kurukshetra
2. Somewhere I wanted to work with code, dropped the idea due to some stupid reasons. Plus I wanted to do an MBA from first year.
3. Took part in some competitions : Social Entrepreneurship and Business Plan Preparations (won many of them), but everything was an idea and on paper/ppts. Basically everything was done for resumes and greed for extra money won in competition.
4. Worked on Marijauna Policy Reformation (for a competition) this introduced me into Policy Formation, Implications and drove my interest deeper into the subject
5. I started reading more about Policy Ramifications to gain a broader perspective, drugs, prisons, racism, alt right groups, tatoos, tribes,nazis.
6. There is particularly no link, but my curiosity drove me to read about these topics.
7. I started to work to build my resume primarily : Volunteering with United Nations

8. Came to Project Potential : Realised one thing that I don't want to work in the development sector with only spreading awareness and mobilisation. By this I mean I may not enjoy working like that, not that anything is wrong.
9. Became Placement Coordinator 4th Year, kept cribbing.
10. Volunteered in Shiksha Fest : Shiksha is an organisation from the students of NIT Kurukshetra for kids from nearby regions and children of staff workers.
11. Joined Alstom
12. Applied and qualified for India Fellow: Didn't go
13. Applied and successfully completed one IT fellowship in Machine Learning
14. Applied and qualified for Plaksha : Didn't go
15. Rejections are upwards
